 Jeremy's beautiful hair
KYLE MANE

APIS CLUES

These start with the first five numerical prefixes from the IUPAC nomenclature of organic chemistry, METH-, ETH-, PROP-, BUT- and PENT-.

APIS CLUES: devised by @apisclues.

1. Came across brick-carrier's system - METHOD
2. Moral failure ultimately leads to troglodyte hounding inappropriately clothed, attractive ladies - ETHICAL
3. Professional centre-forward making sexual invitation - PROPOSITION
4. Timeless target for jokes: locks that could have saved the Tay bridge? - BUTTRESSES
5. Rat trap overhauled, primarily to capture small bird - PENTITO
